

### SMD Multilayer Chip Capacitor (MC Series)

---

Multilayer ceramic capacitor , MLCC, chip capacitor for multiple sizes and material to support wide range of capacitance , extremely compact size, low inductance and high frequency, excellent solderability and

---

### SMD Multilayer Chip Capacitor (MCF Series)

---

---

### Automotive Grade Multilayer Ceramic Chip Capacitor (MCF(A)..A Series)

---

---

### SMD Industrial MLCC (IM Series)

---

---

### SMD Open-Mode Design MLCC (OP Series)

---

---

## Automotive Grade Resistor

---

Viking's automotive grade components with AEC-Q200 qualified to meet automotive industrial standard. Anti-sulfur thick film , Precision thin film , current sensing, and resistor array , MELF resistor all are available for Car

---

## Thin Film Resistor

---

Thin film high precision resistor, very accurate resistor for tight tolerance down to 0.01% and Extremely low TCR 1ppm with advanced thin film technology. Wide resistance range and Anti-corrossive, anti-sulfur,

---

## MELF Resistor

---

Viking is professional manufacturer for all kind of resistor including MELF , metal film and carbon . Tight tolerance , low TC for critical need or high power carbon for general use.

---

## Current Sensing Resistor

---

Various of material and produtction process for different market need, cearmic chip current sensing, metal strip , metal foil and shut resistor. Automtoive grade and AEC-Q compliance are available. all process in house and

---

## Metal Low Ohm Resistor

---

Various of material and produtction process for different market need, cearmic chip current sensing, metal strip , metal foil and shut resistor. Automtoive grade and AEC-Q compliance are available. all process in house and

---

## Metal Low Ohm Resistor

Various of material and production process for different market need, ceramic chip current sensing, metal strip, metal foil and shut resistor. Automotive grade and AEC-Q compliance are available. all process in house and

## Thick Film Resistor

General purpose thick film resistor, high power, low TCR is available. small size from 01005, highly reliable multilayer electrode construction, compatible with all soldering process. Special long side terminations are

## Network/Array

## Functional Thick Film Resistor

To meet all kind of function demand that we use thick film process to meet high power, high voltage, pulse withstanding and anti-surge, anti-sulfur for critical environment. Automotive grade is available. mostly follow

## Leaded Resistor

Viking is offering various resistor to support all in one shop buy, leaded resistor for metal film, carbon, flame proof, very precision, tight tolerance, metal glazed, metal oxide, wirewounded all available.
